

## ProviderOne Phase 2: Affected Providers

### Phase 2 of the ProviderOne Project

ProviderOne, the online, electronic payment system that rolled out to most of Washington State's medical providers four years ago, is expanding. The claims management system will soon include social service providers who serve clients eligible to receive Medicaid. They include community residential providers, home care agencies, and some medical providers who did not transition in the first phase of the project in 2010.

Social Service Providers		Medical Providers
Residential	Non Residential	
Adult Family Homes	Agency Home Care	Adult Day Health Centers
Alternative Living	Agency Respite/Recreation	Durable Medical Equipment
Assisted Living	Assistive Technology	Licensed Counselors & Social Workers
Supported Living	Client Training	Physical, Occupational & Speech Therapists
Group Home	Community Choice Guide	Nutritionists or Dieticians
Companion Home	Environmental Modification	Private Duty Nursing
Children's Residential	Home Delivered Meals	Skilled Nursing
	Personal Emergency Response System (PERS)	

### Individual Providers (W-2 Providers)

Individual Providers will transition to a new payment system at a date still to be determined. There are roughly 40,000 Individual Providers represented by Service Employees International Union Healthcare 775NW.
